

GREENLIGHT

The Opus System supports companies in reducing their pack costs and improving the environmental performance of their packaging.

Designed and manufactured in the UK, the tough and compact machine is durable enough for the most demanding of warehouse and industrial applications.

Opus produces high yielding cushions made from biodegradable or recycled plastic films to give market leading costs per cubic metre for any void fill application.

LOWER PACK COSTS

SUPERIOR ENVIRONMENTAL PERFORMANCE

QUALITY BRITISH MANUFACTURING

“If a system performs better, costs less and is better for the environment, why wouldn't you use it?”

TECHNICAL SPECIFICATIONS

Speed	: Up to 17m per minute 80 cushions per minute (200 x 200)
Throughput	: 11 cubic metres/hr
Electricity Supply	: 100-240V Single Phase
Dimensions	: 36cm x 30cm x 28cm
Weight	: 8.5kg

FILM SPECIFICATIONS

OPUS BIO AND OPUS RE-C

200mm	x	100mm	x	500m
200mm	x	200mm	x	500m

400mm	x	50mm	x	325m
400mm	x	120mm	x	325m
400mm	x	160mm	x	325m

OPUS PRO-TECH

Quilt:	400mm	x	260mm	x	260m
Double Tube:	400mm	x	155mm	x	260m
Double Tube XL:	400mm	x	155mm	x	260m

FREQUENTLY ASKED QUESTIONS

Are Green Light's environmental films more expensive than competitive products?

Our environmental films are priced to offer better value than non environmental alternatives, and guarantee to reduce overall pack costs for our clients.

How does Opus Bio biodegrade?

Opus Bio reduces plastic pollution and the volume of plastic build-up in landfill. The film uses a special additive that causes the

film to completely biodegrade, as measured by ASTM D6954-04. In the presence of moisture, micro-organisms and oxygen, Opus Bio is certified to completely biodegrade in 12-24 months, leaving no residue.

Does Green Light supply Hopper Systems?

Green Light design and build a range of customised material handling systems for high volume packing lines as well as 'plug and play' units for lower volume users.

“ We have had a great response to Opus in Australia. Our customers are very happy with the system reliability, bio film and competitive pricing.
Thank you for all your support **”**
